

Position: CNC Machinist (post 051315)

Description: Turbine Technologies, Ltd is seeking a CNC machinist familiar with HAAS CNC machine tools, MasterCam™ and or SurfCam™ software.

Our innovative and class leading products serve as dynamic, hands-on teaching tools at higher learning institutions worldwide. The CNC machinist will join our team to assist in the manufacture of a wide variety of high-tech components. We utilize CNC milling, turning, wire and die sink EDM and work with materials to include aluminum, SS, Titanium and a variety of super alloys. Turbine Technologies work environment includes a climate controlled shop, natural lighting and bright floor coatings that create a laboratory like work atmosphere.

Requirements:

- Associate degree in Machine Tool Technics, or equivalent work experience
- Knowledge of CNC milling, turning and either MasterCam or SurfCam tool-path generation software
- Experience with SolidWorks™ CAD software desirable, but not necessary
- Strong written and verbal communication skills

Turbine Technologies, Ltd offers a highly competitive compensation and benefits package. If you have the passion and drive to share your expertise, we would like to talk with you. For consideration, please reply with your resume and salary requirements and include "CNC Machinist" in the subject line of your email.
